TEAM!**

Support worker roles

It's not easy, and it's not for everyone. But as a support worker, the rewards can be so much bigger than the challenges.

You'll gain an in-depth knowledge of autism or disability and most importantly, you'll learn through real experiences and carve your own career in social care.

Many of those who join us have no previous knowledge of the NDIS, autism or support work.

Our fantastic induction programme and continuing learning and development opportunities help all of our staff become experts in the field.

There is a huge variety of roles on offer, from helping a student make the most of university life to working in the community, in one of our residential or respite homes.

Take a look at what's on offer on the back of this leaflet.

Why work for us?

As part of our team, you'll be helping autistic or disabled people do things they never thought they could, while gaining priceless experience and enjoying great benefits too. **MAKING DREAMS COME TRUE.** From our extensive learning and development programme to our supportive working environment, as well as the usual benefits you would expect.

Most of us work flexibly. It fits in with our family or other commitments. Please talk to us about your preferred working pattern.
